---

## PROJECTS

### PROJECT TITEL: MOBILE PHONE APPLICATION

This **MOBILE PHONE APPLICATION** program provides a simple interface for users to explore and compare mobile phones. It uses a menu-driven approach, allowing users to select options such as exploring categories, checking new releases, comparing popular phones, and checking phones within a specific price range .

### PROJECT TITEL: RECIPE MANAGEMENT SYSTEM

This **RECIPE MANAGEMENT SYSTEM** to enhance productivity and consistency in the kitchen. Recipe management systems make the work of equipment operators, production managers, and process engineers easier, more efficient, and less error prone.
